JULY TO DECEMBER

1929

WHAT IS NEW THIS MONTH

Table of Contents for July

LEADING ARTICLES

Doomed to Die—and They Live! . . . *By Robert E. Martin* 17
Will science reprieve radium victims from a lingering death?

Talking to the South Pole 20
Radio marvels that link the 1929 explorer to the world

What John D. Rockefeller Has Done for Me . . . . . *By Henry Morton Robinson* 21
A little-known side of the world's richest man, as a saver of lives

How Air Giants Are Parked 23
Novel equipment for the intricate job of docking a dirigible

Why Everyone Has a Double . . . . . *By Michel Mok* 30
Astonishing new facts about people who look alike

Has Fame Made Lindy "High Hat"? . . . *By Donald E. Keyhoe* 32
A new slant on the Lone Eagle, by one of those who know him best

"Mystery Fish" Outwit Scientists . . . . *By Tom White* 41
Thrills and romance with the salmon fleet

Learn to Fly with Larry Brent—Part V . . . *By Larry Brent* 44
A greenhorn pilot tells of his first landings

Someday We'll Look Like This . . . . *By Arthur A. Stuart* 47
An advance view of your descendants a few thousand years hence

Speed and Your Car . . . . . *By Alden P. Armagnac* 48
How race track dare-devils are giving us better autos

Why Is Perpetual Motion Impossible? . . *By Edwin W. Teale* 54
A mechanical will-o'-the-wisp that still lures inventors

SPECIAL FEATURES

Cover Design . . . . . *By Herbert Paus*

Pinning Tails on Donkeys—Part II . . . . *By Wallace Ames* 4
Why few people take money out of Wall Street and keep it

The Institute—Yours to Use . . . . . *By F. G. Pryor* 12
How Popular Science Institute's service solves readers' buying problems

Our Readers Say— 14

Climbs 722 Feet Nearer the Sun . . . . . *By John E. Lodge* 25
How a Daring Navy Flyer broke the world's altitude record

Back of the Month's News . . . . . *By Karl Vooght* 50
Significant comment on recent events in science

Unusual Men in the Public Eye 56
Thumb-nail sketches of people worth knowing

How to Go Gunning for Distance . . . . *By John Carr* 70
A new bag of tricks for the man with a one-control radio

Prize-Winning One-Tube Sets . . . . . *By Alfred P. Lane* 71
Announcing awards in our receiver building contest

Choosing the Best Roof . . . . . *By Roger B. Whitman* 74
Valuable suggestions for the hardest-worked part of the house

Trellises Improve the Garden . . . . . *By F. Clarke Hughes* 78
How to build all sorts at trifling expense

Simple Ways to Polish Sheet Metal . . . *By Edward Thatcher* 80
Finishing brass, copper, and silver by hand or machine

Editorials 82

How to Break-In Your New Car . . . . . *By Martin Bunn* 84
Gus and Joe tell what every purchaser should know

How to Test Your Squares . . . . . *By Henry Simon* 94
Raising the accuracy of fine shopwork

Automobiles

What Goes into Your Car! . . . 43
Speed and Your Car 48
Wireless Beam Will Guide Segrave's Challenger 64
A Safety Pyre—200 Autos Fed to the Flames 65
Auto Drivers Slump after Ten Years, Says Expert 65
How to Break-In Your New Car . 84
If You're Stalled in the Rain . . 88
Finding Loose Bearings 88
Light for the Gas Gage 88
Simple Pipe Flaring Tool 88
Cleaning the Starter 88

Aviation

How Air Giants Are Parked . . . 23
900 Miles in Balloon 24
Plane Drops Stalled Motor . . . 24
Radio Signal Lights Tell Altitude . 26
An Electric Flying Suit 26
Wing Slots in Thrilling Test . . 26
Plane Lands by Parachute . . . 26
A Plane Copied from Bats . . . 26
Two-Way Phone Service for Planes. 27
76,000 Miles of Airways 27
Air Mail Records Broken 27
A Real Flying Start 27
Sky Luxury—Even Refrigerators! . 27
When You Take a Ride 28
First Race for Dirigibles 28
The Navy's New Carrier 28
U. S. to Alaska—Nonstop . . . 28
Molding Plane Fuselages 28
Greatest Airship Hangar 28
11 Cents a Mile by Plane . . . 28
A 5,000-Mile Airway 28
Teaching Pilots to Fly "Blind" . . 29
Luxurious Air Yacht 29
Hundred-Passenger Plane . . . 29
Parachute-Seats for Passengers . . 29
Learn to Fly with Larry Brent . . 44
Flyer Somersaults Twice in a Day, and Lives 57
Rats Attack the *R-100* 67
Airplane Takes Census of Alaskan Game 69

Engineering

Quenching Gibraltar's Thirst . . 50
Improving Phone Cables 52
Model Shows Huge Anchor for Hudson Bridge 62
Giant Elevator Will Lift Thousand-Ton Vessels 62
May Pump North Sea to Win a Rich New Land 68

Exceptional People

What John D. Rockefeller Has Done for Me 21
Has Fame Made Lindy "High Hat"? 32
He Trails the Dawn of Man . . . 56
Edison's Nearest Rival 56
Chinese Artist "Paints" with Postage Stamps 60

July, 1929, Vol. 115, No. 1. **Popular Science Monthly** is published monthly at 250 Fourth Avenue, New York, N. Y., by the Popular Science Publishing Co., Inc. Entered as second-class matter Dec. 28, 1918, at the Post Office at New York under the act of March 3, 1879; additional entry as second-class matter at Chicago, Illinois. Entered as second-class matter at the Post Office Department, Canada. Printed in U. S. A. Copyright, 1929, by the Popular Science Publishing Co., Inc. Single copy, 25 cents. Yearly subscriptions to United States, its possessions, and Canada, $2.50; foreign countries, $3. The contents of this magazine must not be reprinted without permission. In presenting in its editorial columns numerous stories of new products of applied science, **Popular Science Monthly** does not underwrite the business methods of the individuals or concerns producing them. The use of **Popular Science Monthly** articles for stock-selling schemes is never authorized. O. B. Capen, President and Treasurer; R. C. Wilson, Vice-President; A. L. Cole, Secretary.

Gar Wood, Jr., Is a Chip off the Old Block . . . 67
Invents a Machine to Trace Ship Movements . . . 69
Savior of the Birds . . . 137
Makes Watches Keep Time . . . 138

Health and Hygiene

Why You Lose Five Pounds in the Summer . . . 51
Surgical Tools 2,000 Years Old Unearthed . . . 58
New Serum Substitute in Blood Transfusions . . . 58
Tests Vindicate Some Old "Home Remedies" . . . 60

Laboratory Discoveries

The Lamps of the Future? . . . 50
Fuel Gas from Scrap Iron . . . 52
Electricity from Heat . . . 53
Electricity May Have New Rival in Industry . . . 59
Einstein Presents Theory in Simpler Terms . . . 60
Advances New Theory for Color Blindness . . . 62

Nature

Giant African Bullfrog Weighs Ten Pounds . . . 61
Curious Horned Nuts Look Like Buffalo Heads . . . 63
Sharks and 60-Foot Whale in Thrilling Battle . . . 67
Giant Turtle 300 Years Old . . . 147

New Devices for the Home

Ladder and Ironing Board in One . 76
Press a Button and the Toast Turns 76
New Fiber Plates Save Dishwashing 76
One Utensil Is Teakettle, Preserve Kettle, and Boiling Pot . . . 76
Automatic Table Grill Resembles Radio Set . . . 76
Indirect Light for Your Bridge Table 76
Folding Oven for Table Stove . . . 76
New Knife Sharpener Has Adjustable Stone . . . 76
Sink Drainer Works Like Tire Pump 77
Miniature Sewing Machine Easy to Carry and Set Up . . . 77
It Makes Toasters and Percolators Automatic . . . 77
One Leg of Bridge Table Unfolds All 77
Clothes Washer Has 12 Speeds . . . 77
Goes Up for Washing, Down for Storing, When You Turn Crank . 77
Novel Dish Keeps Cheese Fresh . . 77
Attachment Governs Iron Heat . . 77

New Processes and Inventions

New Electric Saw Makes 29 Different Cuts . . . 58
Limousine Fire Engine the Latest in Paris . . . 59
Card Holder Aids Memory of Bridge Novices . . . 60
New Electric Lamp Bulbs Clean Themselves . . . 61
Luminous Watch Shows the Way to the Keyhole . . . 63
Strange Winged Speed Boat All but Flies . . . 64
Handle Tightens Strings of New Tennis Racket . . . 66
Air Horn for Locomotive . . . 66
Rotating Disks Measure Ripeness of Tomatoes . . . 66
Ice Cream Gun Serves Sundaes in Cones . . . 66
Submarine Rescue Pontoons Pass Crash Test . . . 67
Electric Razor Needs No Blades nor Lather . . . 68
A Pencil That Lights Your Cigarette 69
Talking Movie Outfit for the Home . 69
Improved Diesel Engine . . . 145

Radio

Talking to the South Pole . . . 20
Now 20,000,000 Radio Sets in the World . . . 61
How to Go Gunning for Distance . 70
Prize-Winning One-Tube Sets . . 71
A B C's of Radio . . . 73
Water Pipes for Your Antenna . . 73
Curing the Hum . . . 73
Hum and Speaker Quality . . . 73

Unusual Facts and Ideas

Doomed to Die—and They Live! . 17
Why Everyone Has a Double . . 30
"Mystery Fish" Outwit Scientists . 41
Someday We'll Look Like This . . 47
Lake Gives Up Roman Galley . . 51
Queer Symbols Speak a Precise Language . . . 52
How Much Do You Know about Firearms? . . . 52
Why Stamps Come Off . . . 53
Why Is Perpetual Motion Impossible 54
Explaining the Mystery of the "Human Cannon Ball" Thriller . . 57
Battleship Fights Big Seas . . . 57
Japanese Taller in America . . . 58
Novel Uses for Tantalum, Silvery-White Metal . . . 59
This Hillside Home Has a Stairway of Fountains . . . 59
Bantams Aid in War on Insect Pests 59
Headphones in Theater . . . 60
Auction Bridge Taught by New Solitaire Method . . . 61
Outboard Motor Boats Race in Swimming Pool . . . 62
Fight Fire by Freezing It with "Fizz" Gas . . . 62
Forest of Odd Dwarf Trees Grown by "Surgery" . . . 63
Useful New Plants . . . 63
The World Bathes in Yankee Tubs . 63
Shade for Kansas . . . 63
Trans-Atlantic Lifeboat Rescued by Steamer . . . 64
Italian Submarine Dives 383 Feet—a Record . . . 64
A Lofty Mountain Range Found under the Sea . . . 65
Sea Water by Freight for New Chicago Aquarium . . . 65
"Mechanical Brains" Rule New York Traffic . . . 65
Cave Men Lived in Nevada 3,000 Years Ago . . . 66
"Gassed" Eggs Kept Fresh by New Process . . . 66
Lampblack Prevents Fires from "Static" Sparks . . . 66
Our Food May Give Us Squirrel Chins . . . 68
Many Kinds of Precious Stones in America . . . 69
Colored Glass Produced by Addition of Metals . . . 69
Diamond Fields Once Home of Stone Age Men . . . 139
Going Back to the Farm . . . 139

For the Home Owner

Choosing the Best Roof . . . 74
Trellises Improve the Garden . . 78
A Lily Pond Needn't Cost Much . 79
How to Read Blueprints . . . 104
Wiring a Vase for Lights . . . 112

Hints for the Mechanic

How to Test Your Squares . . . 94
Correcting Milling Arbor . . . 96
Simple Lamp Holder for Lathe . . 96
Grinding a Reamer . . . 96
Inexpensive Jig for Offset Bends . 96
Old Bill Says— . . . 96
Handling Valve Grinding Compound 115
When You Mount a Grinding Wheel 117

Ideas for the Handy Man

Homemade Electric Coil for Decorating Wood . . . 79
Simple Ways to Polish Sheet Brass, Copper and Silver . . . 80
How to Copy an Old Sea Chest . 81
Building a Fast Yacht Model . . 86
A Wood Turner's Bag of Tricks . . 90
Photographing Reflections . . . 98
How to Shape an Eight-Sided Tapered Stand . . . 100
Your Shadow Stays Behind . . . 102
Boy Builds Gas-Station Model . . 108
How to Make a Neat Wrought-Iron Bracket . . . 108
Blueprints for Your Home Workshop 109
Magic-Cross Block Puzzle . . . 110
How to Test Alloy Steels . . . 111
Support for Lamp Shade . . . 113
Bench Magnifying Glass . . . 113
How to Cut Glass Square . . . 113
Revolving Toy Traffic Sign . . . 114
Patching Concrete Drives . . . 115
Fixing Composition Roof Shingles 118
Blueprints for Builders of Model Airplanes . . . 125
Garbage Can Holder . . . 126
Truck for Outboard Motor . . . 128
Easily Made Bench Stop . . . 128

In This Issue—Hundreds of Fascinating Articles Tell the Latest News of Laboratory Discoveries, Scientific Triumphs, and Amazing New Inventions

WHAT IS NEW THIS MONTH

Table of Contents for August

LEADING ARTICLES

Taught Himself to Fly and Broke a World's Record . *By Michel Mok* 17
The amazing ride to fame ot an ex-cowboy and a former railroad mechanic

Now—Phone Home from a Train! 20
A startling new link in the chain of communication

650 Miles by Plane for $4.68! . . . . . *By Robert E. Martin* 21
How the Diesel motor has invaded the sky

Tubes to Link City and Airport 23
Men and mail may speed to planes through giant tunnels

Crushed in the Jaws of Arctic Ice . . *By Capt. Robert A. Bartlett* 24
A veteran mariner's greatest thrills, as told to Fitzhugh Green

Has Our Earth a Glass Heart? . . . . . *By John E. Lodge* 31
What you might see if you could look "through to China"

A Man Who Always Does the Impossible . . . . . *By Frank Parker Stockbridge* 32
The dramatic story of a modern alchemist who gave us a new world

Famous Flights 34
A pictorial presentation of aviation's astonishing advance

Little Black Bag to Solve Crimes . . . . *By H. C. Davis* 42
Latest exploits of science, the supersleuth

Learn to Fly with Larry Brent . . . . . *By Larry Brent* 44
Through a breath-taking tail spin with a greenhorn pilot

Toy Dams to Save Lives . . . . . *By Arthur A. Stuart* 47
How engineers use models to solve gigantic problems

At the Throttle of the "Big Hog" . . . *By Arthur Grahame* 52
Riding a two-hundred-ton locomotive over mountain rails

How to Rescue a Drowning Man 54
Valuable information presented in vivid pictures

Model Planes in Amazing Flights . . . *By Edwin W. Teale* 55
Thrills and surprises in flying miniature machines

SPECIAL FEATURES

Cover Design . . . . . *By Herbert Paus*

A $15,000 Trifle . . . . . *By Wallace Ames* 4
The financial editor's monthly counsel

What Insulation Really Does . . . . *By Collins P. Bliss, M.A.* 12
Popular Science Institute offers helpful advice to home builders

Our Readers Say 14

People in the Public Eye 30
Little stories of unusual folks you'd like to know

Back of the Month's News . . . . . *By Karl Vooght* 48
Absorbing facts behind the latest discoveries

Beware of Radio Bargains! . . . . *As Told to Newton Burke* 70
Timely hints for the set buyer

Two New Tubes—What They Do . . . . *By Alfred P. Lane* 71
How new equipment adds volume and distance

Lining the Rooms of Your House . . . *By Roger B. Whitman* 74
An expert's practical advice on inside wall construction

Your Motorized Workshop . . . . *By William W. Klenke* 78
Directions for making a Colonial footstool

New Ornaments for Your Home . . . . *By Berton Elliot* 80
Helpful hints for the amateur decorator

Editorials 82

Dollars Your Car Can Save You . . . . *By Martin Bunn* 84
Gus and Joe tell why it pays to own an automobile

Tools That Help You See Better . . . . *By Henry Simon* 96
How mirrors and magnifiers aid the machinist

Astronomy

Comets Hauled from Space by Our Solar System? . . . 65
Future Trip to the Stars Portrayed in Movies 68
Discoverer of Stars 136

Automobiles

Gasoline Waste a Billion Dollars a Year 60
Odd Tricycle Truck Turns in Its Own Length 63
Gas Pump Dial Safeguards Against Short Measure 63
How Improved Roads Cut Your Motoring Bill 67
